THE SIMPLE, FAST & CHEMICAL FREE WAY  
*to Clean, Polish & Prep*

# INNOVATIVE. AFFORDABLE. *Versatile.*

Diamabrush is a breakthrough in concrete polishing and surface prep technology. Floors battered by grime and filth can look new again. Stubborn coatings like mastic and carpet adhesive disappear in seconds.

*The secret?* Our patented diamond abrasive technology that enables end users to professionally clean, prep and polish surfaces without heavy equipment or harmful chemicals. From concrete and epoxy to terrazzo and hardwood, Diamabrush makes the toughest jobs seem easy at a fraction of the cost.

A REVOLUTION IN FLOOR PREPARATION TECHNOLOGY

## CLEAN, POLISH & PREP YOUR OWN FLOORS *with your existing cleaning machine.*

Diamabrush uses uniquely designed diamond grit blades to rejuvenate dull, worn floors. The revolutionary system is robust enough to prep and restore the grimeiest floor and versatile enough to **indefinitely maintain** a polished floor through everyday cleaning. The shine gets better with each use, producing clean, beautiful and glossy surfaces.

## Save 82% on floor refinishing costs. *Without downtime.* SERIOUSLY.

**The results are professional. The cost is not.** Diamabrush produces astonishing floor transformations – all while being used on a standard floor cleaning machine or auto scrubber. No need for diamond grinders or shot blasters. The Diamabrush system fits into normal cleaning regimens and is a fraction of the cost of traditional polishing.

A **REVOLUTION** IN FLOOR PREPARATION TECHNOLOGY

#### CASE STUDY:

## MANUFACTURING FACILITY

*Lansing, Michigan*

#### PROJECT:

- » 200K Sq. Ft. (120,000 can be coated or polished)
- » Facility Needs: Polishing Concrete, Prep and Coating  
Blue Epoxy, Yellow Striping lines
- » Contractor quotes - \$330,000 - \$480,000

#### DIY PRICES:

- » Diamabrush Tools:
  - Polishing Brushes - \$9,000
  - Concrete Prep Tools - \$2,000
  - Removal Hand Tools - \$500
  - TOTAL - \$11,500**
- » Rust-Oleum Coatings Prices:
  - Yellow Striping Paint- \$2,000
  - Blue Epoxy- \$4,000
  - Clear Epoxy- \$4,000
  - TOTAL - \$10,000**

**TOTAL CUSTOMER PRICE - \$21,500**

**TOTAL CUSTOMER SAVINGS - \$308,500 - \$458,500**

*Picture 1 - Before*

*Picture 2 - After Restoration Process*

*Picture 3 - Maintaining for 1 Year*

TRULY MAINTAINABLE  
FLOORS *without*  
*chemicals or burnishing.*

Facilities can continue to clean with the final grit Diamabrush tool to maintain and improve the floor's polish. In the past, to maintain polished concrete facilities had to use topical chemicals and burnishers; often a very expensive program. With the Diamabrush tools, there is no topical chemicals or burnishing, just water and routine cleaning. Picture 1 (Costco) shows the facility before using Diamabrush, picture 2 shows after the Diamabrush's restoration process was completed, and picture 3 shows the same floor 1 year after repeated daily cleaning with the Diamabrush 1000 grit tool.

# CONCRETE *Polishing*

## FANTASTIC FLOORS. EVERY TIME.

The Diamabrush Polishing System rejuvenates old concrete floors to a high-gloss, gorgeous finish that is not only easy to MAINTAIN, but looks better with each use. There's no downtime. Polish YOUR floors at YOUR pace during your daily cleaning routine.

A CHEMICAL-FREE polishing system that is used with water, Diamabrush generates NO DUST and works on standard cleaning equipment, such as automatic scrubbers and single-disc flooring machines. It really is this SIMPLE: Polishing concrete floors has never been easier.

### Simplicity.

Use on existing, standard equipment such as automatic scrubbers and flooring machines.

### Maintainable.

Routinely clean with your final grit brush to not only maintain, but continually improve your floor's appearance.

### Sustainable.

The Diamabrush system is a mechanical polishing solution that is chemical-free.

### Cost Effective.

Achieve professional results at a fraction of the cost of traditional polishing methods.

Subject to one or more U.S. and Foreign Patents and other pending patents.

The Diamabrush Polishing system is simple to use. To get started, end-users will need to provide the following to determine what brushes are required for their project:

- 1) Make and model of machine
- 2) Size (diameter in inches) of brushes
- 3) Overall square footage to be restored
- 4) Starting condition of floor:
  - a. Coating that needs to be removed
  - b. Old, worn or pitted
  - c. Smooth but dull

Once the required brushes are determined, you are ready to begin transforming your floor! Please contact a Diamabrush representative at our customer service line at (855) DB-TOOLS with any questions or concerns.

# CONCRETE *Prep Tool*

## SURFACE PREPARATION MADE SIMPLE

**Prepping concrete floors is the most important step in successfully coating them.** It's also the hardest. Doing it right has traditionally been a professional's job and involved heavy-duty shot blasters or diamond grinders requiring 480 three-phase power and special knowledge and training. Not anymore.

Diamabrush's revolutionary floor prep system works on standard 110 volt or battery-powered cleaning equipment, such as automatic scrubbers or single-disc flooring machines. It can also be used wet for a dust-free operation or dry so it can be coated quickly. The easy-to-use system leaves concrete perfectly profiled that results in excellent coating adhesion every time. The approach is simple. The results are extraordinary: Beautifully coated floors.

### ***Simplicity.***

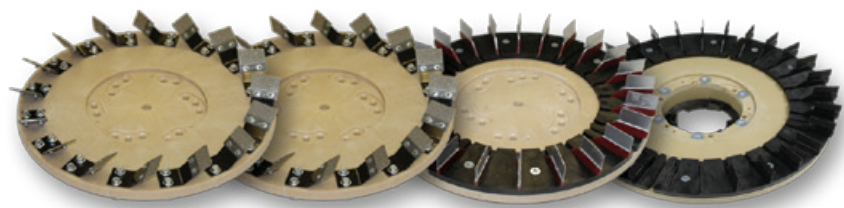

*Achieve on existing, standard equipment such as automatic scrubbers and flooring machines.*

### ***Sustainable.***

*The Diamabrush system is a mechanical removal solution that is chemical-free.*

### ***Cost Effective.***

*Achieve a professional profile for coating systems up to 30 mils thick at a fraction of the cost of traditional surface preparation methods.*

*Subject to one or more U.S. and Foreign Patents and other pending patents.*

The Diamabrush Concrete Prep tools are simple to use. To get started, end-users will need to provide the following to determine what brushes are required for their project:

- 1) Make and model of machine
  - a. Is it a walk-behind or small ride-on machine or a large ride-on machine
- 2) Size (diameter in inches) of brushes
- 3) Starting condition of floor:
  - a. Old, worn or pitted
  - b. Smooth and dull
- 4) Overall square footage to be restored

Once the required brushes are determined, you are ready to begin transforming your floor! Please contact a Diamabrush representative at our customer service line at (855) DB-TOOLS with any questions or concerns.

# COATING Removal

## MAKING TOUGH JOBS SIMPLE

**Removing stubborn coatings has never been easier.** Diamabrush’s innovative coating removal tool is the ideal solution for the difficult job of removing mastics, adhesives and epoxies. This diverse tool removes coatings up to 10 times faster than existing removal methods and leaves behind a perfectly profiled, ready-to-coat surface. Its patented blade design prevents the tool from loading up, even on the most gummy and flexible coatings.

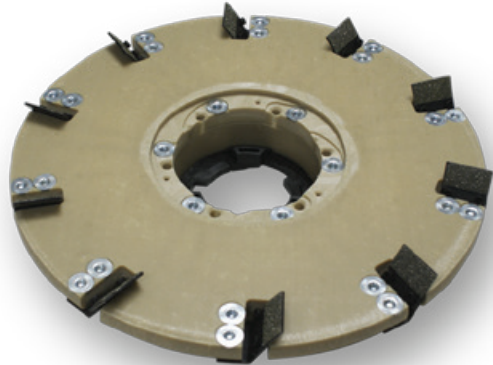

Like all Diamabrush tools, the coating removal tool works on standard rotary flooring machines and automatic scrubbers and requires no chemicals. Just add water to eliminate airborne dust and debris. It really is a revolution in floor preparation technology.

**Simplicity.**  
Use on existing, standard equipment such as automatic scrubbers and flooring machines.

**Fast.**  
The Diamabrush Coating Removal tool will not load up or clog resulting in fast-effective removal throughout the life of the tool.

**Chemical-Free.**  
The Diamabrush system is a mechanical removal solution that is chemical-free.

**Cost Effective.**  
Removes coating and profiles the concrete surface in one easy step - at a fraction of the cost of traditional coating removal methods.

Subject to one or more U.S. and Foreign Patents and other pending patents.

The Diamabrush Coating Removal tools are simple to use. To get started, end-users will need to provide the following to determine what brushes are required for their project:

- 1) Make and model of machine
- 2) Size (diameter in inches) of brushes
- 3) Overall square footage to be restored

Once the required brushes are determined, you are ready to begin the coating removal process! Please contact a Diamabrush representative at our customer service line at (855) DB-TOOLS with any questions or concerns.

# HAND Tools

## REMOVAL JOBS MADE SIMPLE

**Diamabrush's innovative removal hand tools are perfect for edge work or small rooms.** They remove glues, epoxies, paints and other flexible coatings in less than half the time as competitive abrasive tools. Simple to use and easy to maneuver, the Diamabrush Hand Tools require very little pressure, avoiding unwanted ridge marks left in the concrete by other diamond tooling. It's ideal for removing yellow striping lines. Astounding results and perfect profiles are achieved with every use.

### Simplicity.

Easy to use on all brands of existing 4.5 inch and 7 inch hand grinders with a 5/8" 11 inch thread.

### Fast.

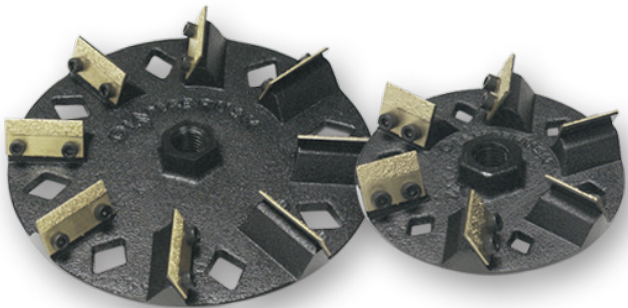

The patented design of the Diamabrush Hand Tools prevents the tool from loading up or clogging, resulting in fast-effective removal throughout the life of the tool.

### Sustainable.

The Diamabrush system is a mechanical removal solution that is chemical-free.

### Cost Effective.

Removes coating and profiles the concrete surface in one easy step.

Subject to one or more U.S. and Foreign Patents and other pending patents.

The Diamabrush Hand tools removes mastics, glue, adhesives, epoxies and urethanes, thin-set, paint, and many other gummy coatings.

Once you determine which Diamabrush Hand Tool is right for your project, you are ready to begin the coating removal process! Please contact a Diamabrush representative at our customer service line at (855) DB-TOOLS with any questions or concerns.

# SAND *and* RECOAT

## AFFORDABLE. EASY. FOREVER.

**Give new life to old, worn, scratched epoxy and urethane floors.** Deep scratches and embedded dirt are quickly removed using Diamabrush’s patented blades. Profile, clean and tack-wipe floors in one simple step. Unlike traditional dry recoating abrasives which load-up and clog quickly, Diamabrush’s patented Sand and Recoat tools run wet, eliminating airborne dust particles that can settle on freshly coated floors and provide a consistent profile throughout the life of the tool.

Sand and Recoat tools work with standard equipment such as battery powered automatic scrubbers or single-disc floor machines. The durability and cutting consistency of the tools ensures you are getting a consistent profile throughout the life of the job.

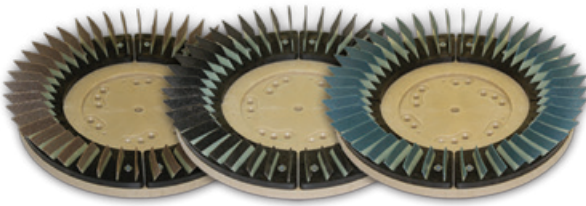

**Simplicity.**  
*Use on existing, standard equipment such as automatic scrubbers and flooring machines.*

**Consistent.**  
*The Diamabrush Sand and Recoat tools will provide a consistent profile throughout the life of the tool.*

**Dust Free.**  
*The Diamabrush Sand and Recoat tools are run with water –ensuring a dust-free recoat process.*

**Long Lasting.**  
*Clean up to 100,000 sq. ft.*

**Cost Effective.**  
*Achieve professional results at a fraction of the cost of traditional recoat methods.*

Subject to one or more U.S. and Foreign Patents and other pending patents.

The Diamabrush Sand and Recoat tools are simple to use. To get started, end-users will need to provide the following to determine what brushes are required for their project:

- 1) Make and model of machine
- 2) Size (diameter in inches) of brushes
- 3) Mil thickness of coating to be installed
- 4) Overall square footage to be restored

Once the required brushes are determined, you are ready to begin transforming your floor! Please contact a Diamabrush representative at our customer service line at (855) DB-TOOLS with any questions or concerns.

# AGGRESSIVE Scrub

## FROM GRIME TO CLEAN

Even the filthiest industrial floors are no match for the breakthrough Diamabrush tools.

Floors coated with oil, grease and grime will return to a like-new finish through your ordinary cleaning routine. Diamabrush's Aggressive Scrub tools come in 50, 100 and 200 grit, which are all more than 10 times more effective than traditional abrasive bristle brushes.

### Simplicity.

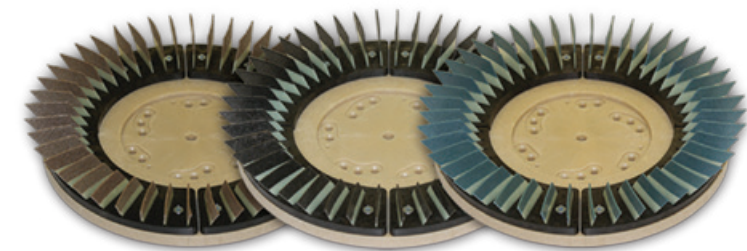

Use on existing, standard equipment such as automatic scrubbers and flooring machines.

### Sustainable.

The Diamabrush Aggressive Cleaning tools are a mechanical solution to removing grease and grime without the use of harmful chemicals.

### Versatile.

Use the 50 grit for severe build up. Use the 100 grit for moderate grime. Use the 200 grit for light dirt.

Subject to one or more U.S. and Foreign Patents and other pending patents.

### Cost Effective.

Achieve a professional results at a fraction of the cost of traditional aggressive cleaning methods.

### Fast.

The Diamabrush Aggressive Cleaning tools will not load up or clog resulting in fast effective cleaning throughout the life of the tools.

The Diamabrush Aggressive Scrub tools are simple to use. To get started, end-users will need to provide the following to determine what brushes are required for their project:

- 1) Make and model of machine
  - a. Is it a walk-behind or small ride-on machine or a large ride-on machine
- 2) Size (diameter in inches) of brushes
- 3) Starting condition of floor:
  - a. Old, worn or pitted
  - b. Smooth and dull
- 4) Overall square footage to be restored

Once the required brushes are determined, you are ready to begin transforming your floor! Please contact a Diamabrush representative at our customer service line at (855) DB-TOOLS with any questions or concerns.

# TERRAZZO Restoration Tools

## RESTORE TERRAZZO WITHOUT CHEMICALS

**The days of stripping and waxing terrazzo floors are a thing of the past.** The Diamabrush system can remove 50 years of yellowing wax buildup, exposing the vibrant colors of the original stone. Using a series of grits in sequence, terrazzo floors can be restored to a high-gloss finish that can be maintained forever - WITHOUT the use of FLOOR FINISH or sealers. This dust-free restoration can be completed with your own automatic scrubber or cleaning machine - no need for heavy duty equipment. Transforming your terrazzo from old to new has never been easier.

### Simplicity.

Use on existing, standard equipment such as automatic scrubbers and flooring machines.

### Sustainable.

The Diamabrush Terrazzo Restoration tools are a mechanical solution to removing grease and grime without the use of harmful chemicals.

### Cost Effective.

Achieve a professional results at a fraction of the cost of traditional terrazzo restoration methods.

### Fast.

The Diamabrush Terrazzo Restoration tools will not load up or clog resulting in fast effective cleaning throughout the life of the tools.

Subject to one or more U.S. and Foreign Patents and other pending patents.

The Diamabrush Polishing system is simple to use. To get started, end-users will need to provide the following to determine what brushes are required for their project:

- 1) Make and model of machine
- 2) Size (diameter in inches) of brushes
- 3) Overall square footage to be restored
- 4) Starting condition of floor:
  - a. Coating that needs to be removed
  - b. Old, worn or pitted
  - c. Smooth but dull

Once the required brushes are determined, you are ready to begin transforming your floor! Please contact a Diamabrush representative at (855) DB-TOOLS with any questions or concerns.

# HARDWOOD *Prep Tool*

## MAKE OLD HARDWOODS NEW

**The hardwood removal tool is the first step in restoring long-lost luster to wood floors.**

Diamabrush works quickly to remove years of stubborn coatings that sandpaper cannot. From polyurethanes and aluminum oxide to carpet adhesives and thin set, Diamabrush works on the most difficult coatings – without gouging the wood or leaving heavy scratches.

Designed to fit on easy-to-use rotary sanders, Diamabrush is ideal for the toughest job. The astonishing tool uses no chemicals, as its diamond blades remain sharp to continually remove without loading up. The result is a tool that is 80% faster than competitive abrasives at removing tough coatings – saving significant time and money for the end-user.

**Simplicity.**  
*Use on existing, standard flooring machines.*

**Fast.**  
*The Diamabrush Hardwood Tool will not load up or clog resulting in fast-effective removal throughout the life of the tool.*

**Sustainable.**  
*The Diamabrush system is a mechanical removal solution that is chemical-free.*

**Cost Effective.**  
*Removes coatings quickly saving labor and sandpaper.*

*Subject to one or more U.S. and Foreign Patents and other pending patents.*

**The Diamabrush Hardwood Tool removes glue, adhesives, and tough coatings from hardwood floors.**

The Diamabrush Hardwood Tool is simple to use. To get started, end-users will need to provide the following to determine what brush is required for their project.

- 1.) What is the Make, Model, and Size of the machine being used?

Once the required brushes are determined, you are ready to begin transforming your floor! Please contact a Diamabrush representative at our customer service line at (855) DB-TOOLS with any questions or concerns.
